Dear Occupier,

First of all we would like to introduce ourselves. For over 50 years, **Davis TV** has built a considerable reputation for supplying premium quality radio, electrical and television equipment coupled with ultimate service and support.

Davis Television can offer the following services:

- Latest in flat panel LCD and Plasma technology on show at the store.
- DVD Recorders with/without Hard-drives and video recorders.
- Hi Fidelity systems including speakers and surround sound systems.
- Rental Service.
- Television and Video Repair service department for most manufacturers.

As you probably know, Eastbourne has been left behind with the current revolution of 'Digital Television'. The only current way of receiving 'Digital Television' is either a subscription with SKY Television or the BBC 'Free-view' service by changing your aerial to High-Gain and then to point it towards the Hastings transmitter, which often means deterioration of the analogue signal.

SKY Television has launched '**Free-sat**' which is a rival service to 'Free-view'. With '**Free-sat**' you can enjoy all the benefits of '**Digital Television**' without a subscription charge. Not only will you receive the normal digital television channels but **also several digital radio stations**. This will cost you a **one off fee of £150** if you already have a SKY dish installed or **£200 if you need a SKY Dish fitted**. This will include delivery and standard installation of your box and card (we will organise the card for you).

We are surprised many Electrical stores in Eastbourne seem reluctant to supply or promote this system, even though it is, in our view an excellent alternative to 'Free-view', and in some cases a fraction of the price of 'Free-view'

All you need is a SKY Television feed into your flat, which should look like one of the following pictures. It will comprise of a screw fit socket.

If you have any more questions about SKY Televisions '**Free-sat**' Offer then please contact our sales team on 01323 733279.

sky

If you are unsure you have this connection in your residence, we can send a member of staff to advise. You are under no obligation to buy.

If you would like to arrange 'Freesat' then please return the form to us at the above address or call in to see us so we can arrange the installation.

We look forward to meeting you in person at Davis Television.

Mike Davis  
Managing Director
